

Site Development/Recreation

Klingner & Associates, P.C. became an early leader in the field of recreational planning and design in 1946, and serves communities, state agencies and the private sector. The success of these projects is based on the firm's ability to meet client needs by providing all technical services required for the project. Design and development of each area is carefully tailored to the characteristics and needs of the community it will serve.

Recreation projects include:

- boating facilities with launching ramps and marinas
- campgrounds with access roads
- comfort stations
- water systems
- sewage disposal systems and electric service
- design, layout and lighting of athletic fields
- lighted tennis courts
- golf courses with irrigation systems
- swimming pools and related facilities
- parks and playgrounds
- lake and recreation areas
- Historic preservation for public use and education

Clients who choose our firm to design their Site Development and Recreational projects benefit from:

- Better bids and overall cost savings due to accurate and complete documentation in our bidding documents.
- A multi-disciplinary design team of qualified professionals.
- High quality professional design resulting from many years of experience in this field.
